

# FLY ON THE WALL

## #13

*Manisha Gera Baswani*

**"To truly laugh, you must be able to take your pain, and play with it!"**

Charlie Chaplin

And playing the pain is what creative people are best at.

While the act of creativity is joyous and satisfying, it is almost always preceded by angst and pain.

Momentary bliss is experienced each time we creative mortals complete a work of art.

Over the years, I have found myself, camera in hand, amidst some very special moments with the artist fraternity

These are times when anxieties have been dropped as the artist offers life a salute.

Completion of a work, the friendly jibe of a loved one or sometimes simply an embrace of friendship .

A few such moments I share with you...
